# \$5,995

### Adding an extra crew?

This instrument has arguably the best optics in the industry. At approximately 7 pounds, the Zeiss R50 with tribrach and battery is one of the lightest instruments on the market (most weigh from 12 to 14 pounds). It reads out direct to 1 second, has an accuracy of 5 seconds, and can shoot 5,000 feet to a single prism. Combined with SMI's Construction Five Package, you'll have a combination no one in the industry can beat!

Zeiss Package with CVCE V5 Package      \$5995
