FOR THIS UNIQUE OPPORTUNITY**

Hello my many friends,

We are excited to report that the SPSC-LSAW will be presenting the free seminar for members of the Land Surveyors' Association of Washington. This year we will be presenting a workshop on Network RTK. GPS has morphed into GNSS. Receiving survey grade corrections has become as simple as connecting to the internet, or is it truly that simple?

The revered instructors for this two day event will be:

- Gavin Schrock, PLS
  - Administrator-Washington State Reference Network
  - Technology Writer
  
- Larry Signani, PLS
  - Senior Survey Project Manager for W&H Pacific
  - GPS Guru
  - Retired US Army Corps of Engineers
  - Instructor of Advanced Surveying and Mapping for the US Army for 14 years
  - Current GPS committee chair for the LSAW and providing computations for WSRN to allow for the use of real time GPS positioning in the state of Washington

Join us September 25<sup>th</sup> and 26<sup>th</sup> for what promises to be one of the best education opportunities of the decade. It's free to LSAW members.
